Trade, said the question ought not to be regarded wholly from an economic stand-

tion of Washington?"
"If that condition was not overpowering, I would give Washington the bank," said Mr. Saunders.

The hearing was closed by John Poole, president of the Federal National Bank.

Mr. Poole said he thought a reserve bank should he located in Washington, Boston, New York, and Atlanta. Mr. McAdoo

sked whether in the proposed district the chief dislocation of business

not come in Eastern Pennsylvania. Mr. Poole said that even if the committee gave the maximum number of banks.

twelve, there would be more or less vio-lence to the present course of business. This condition was inevitable, but Wash-ington in this regard would stand on as

good a basis as a Federal reserve center

Banks in Proposed District.

The proposed district of the clearing ouse committee comprised the District

Delaware, Maryland, Virginia, West Vir-tinia, North Carolina, Eastern Pennayi-vania, and Southern New Jersey. It was shown that this district included 3,061 na-

tional banks, State banks, and trust com-panies, with a capital and surplus of \$1814.588.000, and deposits aggregating \$2,525.776,000. The statistics follow:

There also was submitted a table show

## REV. DR. HOWDEN IS MADE BISHOP

Impressive Services Are Held in St. John's Church, Georgetown.

## SCENE IS BRILLIANT ONE

Many High Dignitaries of Episcopal Denomination in Attendance. Luncheon in Rectory.

Rev. Frederick Bingham Howden, rector of St. John's Protestant Episcopal United States.

Daniel Sylvester Tuttle, Bishop of Missouri, and presiding bisho of the Protestant Episcopal Church this country, conducted the consecration services, which began at 11 o'clock. The services, which began at 11 o'clock. The consecration sermon was preached by nt Rev. P. T. Rowe, missionary up of Alaska, who told of the hardships and difficulties with which a new missionary bishop has to contend in his wild, unchristianized diocese,

church was decorated with greenery, which made a handsome background for the scarlet and purple robes bishops, who were surrounded by a large choir of men and boys, all in while sur-plices. A hanging veil of vines sepa-rated the body of the church from the chancel, while running pine and smilax were entwined around the windows and along the walls. The decorations, the various lines of the clergy's raiment and the sharp notes of color among the hats and dresses of members of the congre-gation made a brilliant picture.

Bishop Rowe's Sermon.

After the collect, epistle and gospel, and the recitation of the Nicene creed by the clergy and congregation together, and a hymn, Bishop Rowe delivered his sermon, taking for his text "The Good Shepherd." After treating as a failacy belief that the church is not keepin the belief that the church is not keeping abreast of the people and times, and saying that unselfishness is the test of a churchman's service, Bishop Rowe turned to Rev. Mr. Howden and said:

"We are gathered under the spirit of the Holy Ghost to consecrate you, and into this work I heartly bid you welcome Now God is calling you to people who will follow your leadership. You go to take up the work of one who gave every-thing, loyalty and self-sacrifice. In your hands we feel that the trust is not mis-placed. The symbol of your office may symbol of your office may erd's crook, but your burden will be that of the Saviour's cross. In bidding you God-speed, I remind you that there is One who has said. 'My grace licient for you.

for consecration was The candidate of the case of t byters were the Rev. Robert railog and the Rev. M. George Read. Hishop Tuttle was assisted by Rishop Boyd Vincent, of Southern Ohio, and Bishop Affred Hard-ing, of Washington. The Rev. M. L. De Vries acted as registrar and the master. of ceremonies was Rev. George F. Dud-

Dons Episcopal Habit.

After reading of the candidate's testi-monials, the candidate stood up and made his constitutional declaration and promise of conformity. Then the entire assemblage bowed heads in prayer for him, semblage bowed heads in prayer for him, following which he was examined by the consecrator. At the conclusion of that formality the bishop-elect put on the episcopal habit and the choir broke forth in song. The last ceremony after the de-livery of the Bible to the newly-conse-crated bishop was the administering of

Foilswing the consecration ceremonies n buffet luncheon was served in the rec-tory by the vestry and congregation. Spe-cial services were held in the church last night. Among the histops who attended the consecration were Bishop James H. Among the bist,ops who attended

## **Pimples Will Not** Be Pardoned

The Failure to Use Stuart's Calcium Wafers, a Proved Remedy for Pimples, Convicts You of Unpardonable Negligence.

Pimples are an offense to others and a rime against yourself. People have only tolerated you because they considered the condition of your face to be a mis-fortune against which you had no rem-But now that it is universally known that Stuart's Calcium Wafers will cure the worst cases of pimples, black heads, blotches, eruptions, and liver-spots your continued negligence will be con sidered inexcusable

The person with a pimply face is always nattractive and at a disadvantage in so-ety. Those ugly disfigurements set at naught the effect of the most perfect fea-If your face and figure had the classical outlines of a Greek statue, a will preside. CONTINUED FROM PAGE ONE.

merce is carried on within its borders. It has three large seaports, the total commerce of two of which vis. Philadelphia and Baltimore, amounted to nearly \$22,00,000 in 19th. It is traversed in every direction by not less than eight large trunk line railroads and many smaller likes, which bring every city, town and village within easy reach of Washington. "The capitalization of the national banks located there is approximately \$120,000,000; their surplus, \$125,000,000, and the total individual deposits, \$777,000,000.
"A Federal reserve bank in Washington, based on the tributary capital and deposits mentioned, would have \$14,000,000 subscribed capital; \$7,000,000 paid in capital, and \$40,000,000 deposits.

"State banks and trust companies in the territory mentioned have \$250,000,000 capital and surplus, and \$720,000,000 deosits, and as some, if not many of such banks, will enter the system, the capital and deposits of the Federal reserve bank of Washington will be increased to the extent that such banks accept the provins of the law.

sions of the law.

"Figures compiled from the published reports of the thirteenth census show that the territory mentioned is rich in agricultural, mining, and manufacturing interests. (To arrive at the result one-half of the published returns from Pennsylvania and two-thirds of the published returns from New Jersey have been eturns from New Jersey have bee nitted to cover that part of these States which are not included plated reserve district.) included in the contem

Total Value of Farms.

"The total value of farm property in 1910 was \$2,500,000,000, and the relation be-tween available acreage and improved farm lands indicates that if capital could cured for that purpose the tota value o

\$432,000,000, \$743,000,000 is invested in mining enterprises of various kinds, and the pro-duction of such enterprises in 1910 was valued at \$218,000,000. "Two billion and a half dollars is

vested in manufacturing enterprises of all kinds, and in 1910 their output was valued t \$2,600,000,000.
"The combined capital invested in these human activities is \$5.84,000,000, and in 1919 they produced \$3,250,000,000 of real wealth, not paper or imaginary profits, but actual values represented by every conceivable thing serviceable for human

need and comfort "In addition to the actual wealth grown in fields, dug from the earth and fash-ioned into shape in mill and factory, we must contemplate the vast fabric of business that is needed to transport these things from place to place and put them into the hands for which they are intended. Transportation, trade, and commerce represent other millions of money

Washington Logical Center

Washington, the nation's Capital, is in the midst of this rich, prosperous territory. Four large trunk line rail-roads, with their tributaries, connect it with every part of the South and Southwest. Two large trunk line railroads and their branches connect it with every part of the North and West.

"Communication between this city
and every village and town and city in the proposed district is rapid and regthe proposed district is rapid and regular. Letters mailed to Washington from points farthest away reach their destination in eighteen hours. Mails to and from points in the North and South pass through Washington, and letters from some points in the South and Southeast section intended for points a few miles west pass through Washington 'ere they reach their des

ination,
"Its central location, its prestige as the sear of government and the loca-tion of the Federal reserve board here nake Washington the logical location for one of the Federal reserve banks.

The extent of territory naturally tributary to the city by reason of easy and rapid means of communication in and rapid means of communication in every direction and the volume and di-versity of business activities in that territory will enable the Federal re-serve board to bring a reserve bank located here up to such a high state of development that it will serve as a room model for other such banks elsewhere. nearl

"Finally, the sense of security afforded by the protection which the Federal government throws around this city must not be overlooked in the matter of locating at least one of such

H. H. Singleton's Views.

W. H. Singleton, representing the trade organizations of the city, said 2,000 busiorganizations of the city, said 2400 business men of Washington wanted the bank here. The city being the seat of the National government, he declared the question of legal jurisdiction a most important one. The question, he said. portant one. The question he would come up early in the operatio portant one. would come up early in the operation the new currency act, and it would be desirable to have a reserve bank here for that reason. In response to a question from Mr. McAdoo, Mr. Singleton doubted whether service on a branch bank could be secured as readily as on

a reserve bank.
"First," said Mr. Singleton, "this is a unitary jurisdiction with one source of legislation, where there could be no con-flict of authority.

"Second. Here there is a right of appeal or of writ of error to the United States Supreme Court, not only in cases which in the States may be so taken up, but in other cases, notably these which relate to the 'validity of any authority' 'scope of any power' of any official or e 'construction of any law of the

"Third. While the Federal reserve act does not specifically provide, yet its terms would require that the office of the Fed-eral reserve board should be here, and the Federal advisory council must meet here 'at least four times each year.'
"Fourth. Sequential to the first three reasons, there would be here, under the personal observation of the Federal recouncil, a Federal reserve bank, in the administration of the affairs of which there would be only Congressional legis-lation interpreted by the United States Supreme Court to be considered, so that question could be speedily determined from conflict of jurisdiction, or in free from conflict of jurisdiction, or other words, a model bank would be

"Fifth. For the above four reasons there would be best subserved one of the specified objects of the act, as enu-merated in the title to establish a more efficient supervision of banking in the United States. M. E. Church, a banker of Falls

M. E. Church, a banker of Fails Church, Va., followed Mr. Singleton. He said Northern Virginia undoubtedly could be served more satisfactorily through a Washington bank.

John B. Larner, of the Board of Trade, said he wanted to confess to the committee that his interest was selfish. 'I have assumed," said he, "that the bank would be considered."

assumed," said he, "that the bank would be located here because this is the Capi-tal of the mation. The city and District is increasing in population and wealth an the time. The currency act was pass-ed here; this is the city of its birth. Every facility is afforded for the opera-tions of the act and the city should be

Secretary Houston said he did not see

Colds Cause Headache and Grip LAXATIVE BROMO QUININE tablets res

tary.

A. G. Clapham, who followed, said he had received many letters from Virginia and North Carolina advocating Washington's selection. He said the people desire to deal with the actual head, and while a branch bank might serve the general purposes of the act, Washington, from a geographical and distributing standpoint, is superior to other cities in the proposed district.

William H. Saundera, of the Board of Trade, said the question ought not to be

Pimples Often the HEARINGS BY EXCISE BOARD. Sixteen Applications for License Serious Blood Another series of hearings will be conflucted by the Excise Board, beginning next Monday, in connection with appli-cations for liquor license transfers. Daily sessions will be held until all of the six-

In thousands of instances blood troubles have been the result of com-ing in contact with disease germs in public places. And the apparently insignificant pimple has been the cause. It spreads with astonishing rapidity, ofen infecting the entire system in a few days.

It is fortunate, however, that there is a remedy to cope quickly and thoroughly with such a condition, in the famous S. S. S.

This preparation stands alone as a blood purifier. It is somewhat revolu-tionary in its composition, since it has accomplished all that was ever claimed for mercury, iodides, arsenic, and other destructive mineral drugs, and yet it is absolutely a purely veg-etable product. It contains one in-gredient which serves the active puretable product. It contains one ingredient which serves the active purpose of stimulating each ting cellular part of the tissues to the healthy and judicious selection of its own essential nutriment. There are more cases of articular rheumatism, locomotor ataxia, paresis, neuritis, and similar diseases resultant from the use of minerals than most people are aware of. These facts are brought out in a highly interesting book compiled by the medical department of The Swift Specific Co., 304 Swift Bldg., Atlanta, Ga. It is mailed free, together with special information, to all who write describing their symptoms.

Get a bettle of S. S. S. to-day, but be careful net to have something palmed of on you faisely claimed to be "just as good."

The only reason why anyone will try to sell you something is place of S. S. S. is the extra profit.
